Work Experience

LogixHealth | *Senior UI Developer (Remote)*
April 2018 – February 2025 | Bedford, Massachusetts

- Engineered user-centered interfaces using HTML, CSS, JavaScript, JS frameworks, Razor/C#, jQuery, and CSS frameworks like Bootstrap, Material UI, and Tailwind, improving medical data visualization and efficiency.
- Collaborated with the design team in Figma and Adobe Suite to refine wireframes, mockups, prototypes, ensuring brand consistency and engagement.
- Delivered WCAG 2.0 and Section 508-compliant, scalable designs, ensuring seamless performance across all devices through usability testing and UX/UI walkthroughs, reducing user-reported UI issues and elevating user satisfaction.
- Performed maintenance and troubleshooting, resolving UI issues like performance bottlenecks and usability errors to ensure consistent functionality.
- Upheld code quality using Git for version control, documentation, and peer reviews, ensuring long-term maintainability.
- Enhanced front-end performance and scalability using Azure DevOps, CI/CD pipelines, npm, Gulp, and a CDN, supporting seamless back-end integration.
- Led an Agile team using JIRA, managing sprints and resolving UI/UX challenges, while collaborating across cross-functional teams to ensure timely delivery of high-quality solutions.

ZOLL Medical Corporation | *Web Developer*
February 2016 – April 2018 | Chelmsford, Massachusetts

- Led the development of ZOLL's multi-language web presence across 12 websites, microsites, and global iPad apps.
- Designed and deployed engaging email campaigns, landing pages, and animations with HubL syntax, markedly increasing user engagement.
- Amplified ZOLL's social media reach, strengthening brand visibility and audience interaction.
- Provided CMS training and support while improving version control practices, boosting website reliability and maintainability.

The Coastal Shopper & News | *Graphic Designer*
February 2015 – October 2015 | St. Mary's, Georgia

- Crafted compelling online media, effectively translating client concepts into visually appealing designs.
- Launched marketing campaigns that established clients' digital presence and elevated social media engagement.

J Green & Co Jewelers | *IT Manager*
March 2013 – January 2015 | Waycross, Georgia

- Oversaw the full website lifecycle—design, development, and maintenance—while troubleshooting issues across multiple branch offices.
- Developed a custom CMS to enable staff-driven content updates, enhancing scalability and management.

Technical Skills

Languages:
HTML
CSS
JavaScript
